SUNSETS SAGA

NOTES:

S:S

The Sunsets Saga will be a new landscape collection with all the knowledge and skills acquired through the production and experience of Solsunsets applied.

As the Critters Cult (C:C), the Sunsets Saga aims not only to have a stunning and beautiful artwork, but also to be a world-building and lore-oriented project connected with Critters Cult;

SUNSETS SAGA

The Sunsets Saga will not focus on being a multi-asset & multi-ratio NFT as the genesis collection.

Instead, the artwork will be **fully crafted on a 3:1 format** in which the compositions will be carefully planned to display all elements even on a centralized 1:1 crop. (Figure 10)

The trait's **colors will dynamically change** according to sky's color, to give a more natural color scheme. (Figure 11)

To shelter these collections and make the distribution possible, we will develop under the brand name **SunS** and will be fuelled by our native token, **Pixels**.
